How to Draw a Perfect Grid Line for Artwork Using a Mobile App

Creating a grid helps artists accurately capture proportions, details, and perspective in their artwork. Here's a step-by-step guide to creating a grid using a mobile app.

1. Choose the Right App / Sahi App Chunein

•   English: Choose an app that provides grid tools like PicsArt, Grid #, or Sketchbook. These apps are widely available for mobile devices.
•   Hindi: Ek aisi app chunen jo grid banane ka option de, jaise PicsArt, Grid #, ya Sketchbook. Yeh apps zyada tar mobile devices ke liye uplabdh hain.

2. Select Your Image / Apni Image Ka Chayan Karen

•   English: Open the app and import the image or blank canvas where you want to apply the grid.
•   Hindi: App ko kholen aur us image ya blank canvas ko import karen jisme aap grid banana chahte hain.

3. Enable the Grid Feature / Grid Feature Ko On Karen

•   English: In apps like PicsArt, go to Tools > Draw > Shape and select a grid. Adjust the size based on your needs.
•   Hindi: PicsArt jaise apps mein Tools > Draw > Shape par jaakar grid ko select karein. Grid ka size apni zaroorat ke hisaab se adjust karein.

4. Adjust Grid Dimensions / Grid Dimensions Ko Adjust Karen

•   English: Set the rows and columns for your grid. For detailed work, use smaller squares; for larger pieces, bigger squares may work.
•   Hindi: Rows aur columns ko set karein. Detailed artwork ke liye chhoti squares ka upyog karein aur bade artwork ke liye bade squares ka upyog karein.

5. Lock the Grid / Grid Ko Lock Karen

•   English: Lock the grid to keep it from moving. This option is usually found in the app settings.
•   Hindi: Grid ko lock karen taki wo move na kare. Yeh option aam taur par app ke settings mein milta hai.

6. Save Your Gridded Image / Gridded Image Ko Save Karen

•   English: Export the image with the grid so you can refer to it while drawing. This will help you keep proportions accurate.
•   Hindi: Gridded image ko export karen taki aap uska istemal drawing ke dauran kar sakein. Yeh aapko proportions ko sahi rakhne mein madad karega.

7. Apply the Grid on Canvas / Canvas Par Grid Lagayein

•   English: Lightly sketch the grid on your paper or canvas with a pencil, keeping lines faint enough to erase later.
•   Hindi: Pencil ka upyog karke apne paper ya canvas par halka grid banaayein, taki zaroorat padne par lines ko erase kiya ja sake.

Using both English and Hindi translations in Roman script can make these notes accessible to a wider audience. You can also add images for each step on your Ankur Art page to illustrate the process better! Let me know if you need additional customization.
